

10/2/78 Thurs.

Babe,

Hi I'm really missing your love lately. Right now, I wish I could lay with you and have you caress me and power me with your warm body. Your gentleness and tenderness really excites me. Because I know how masculine you are, but yet with me you are so gentle and loving. You're so sensitive to my needs & desires and I am totally satisfied with you. I wish I could touch you and have you respond to that touch. I want to hold you and know every part of you very intimately. You are my Babe. Thanksgiving will be great! (and we will be able to get away and be alone).

Work is O.K. lately. It's not that it's that bad, but I feel a need for a change - to get out of here just because I'm sick of it. My patients are all great - esp. the older ones - they're experienced so much & their lives really show it. It's like the things that happened to them throughout life made them how they are now & it's neat to see how everyone's different cause of what happened to them. I like just sitting & talking with them when I have free time.

Also soon, maybe this summer, we'll have to start working holidays because the

Administration wants us too. Also, maybe going Sunday too. So, I really would like to talk with you about looking for another job soon and if Christmas is the best time - I'll wait till then. I guess it would be the best time cause we have 3 weeks together + I decided I'll take 3 days vacation over Christmas + 4 over spring break. O.K.?

For another job - I might end up having to get one out of the area (Bethlehem, Q-town etc.) cause there's not many openings around here. I would appreciate talking with you - It's all really unclear what I'm supposed to be doing - I don't feel any leading but I will wait patiently cause I know He'll show me something sooner or later (on His timing).

Yesterday - I had the day off. So gorgeous outside all's I needed was jeans + a T-shirt - it was so warm. I helped my dad make a foundation. We dug a hole 2 feet deep and I took the ground down to the field ~~down~~ with the wheelbarrow ~~down~~. Then we mixed cement to fill the hole. My dad worked real hard. It was educational to see how the cement was mixed. Then I cleaned my room, mowed the grass and raked leaves. It was pretty good day. I enjoy just doing whatever needs to be done. I like cleaning the house and straightening everything up. But mostly I like doing outside work. I love being outside in the warm sun and the air smells so good.

Psalm 105: 1-4

"Oh give thanks to the Lord, call upon His name - make known His deeds among the peoples. Sing to Him, sing praises to Him. Speak of all His wonders. Glory in His holy name. Let the heart of those who seek the Lord be glad. Seek the Lord and His strength; seek His face continually."

I pray that you would be glad in your heart continually. May you realize His love in your life - I thank Him always for how he keeps you and provides for you constantly.

I also thank Him always for allowing ~~our~~ relationship to happen & for keeping us close. I feel closer to you than anyone. You're my best friend - for always I'm sure! I feel like nothing could possibly separate us - ever! no amount of miles, nothing - because if God wants us to be friends always - we will be (friends + lovers)

I think you're the best + greatest there is anywhere. I feel so privileged - I don't deserve it so good. I mean look what I got → #1 photographer, #1 mechanic, #1 athlete (of various varieties), #1 carpenter, #1 writer, #1 artist, also very intelligent + beautiful (extraordinary) best lover, And then look what you got - you well. I'm not gonna try to talk you out of it. I love you I love you I love you I love you (you better come home before I go crazy)

Val
